

Oportunidad de beca de Verano.

En Lightsource bp estamos buscando un becario para nuestro departamento corporativo de calidad. Somos una empresa multinacional líder del mercado fotovoltaico a nivel mundial con un pipeline de negocio de 25GW en ejecución a 2025.

Esta posición te dará la oportunidad de aprender la tecnología pues estarás en contacto con proveedores líderes del mercado a nivel global.

Esta beca esta remunerada y tiene una duración inicial entre 3 a 6 meses dependiendo del candidato y sus circunstancias. Las condiciones son muy buenas en comparación con becas locales.

El trabajo es 100% remoto en modalidad de teletrabajo. Trabajaras en un entorno 100% en inglés, por lo que se requiere un nivel medio-alto. Te proporcionaremos todos los medios necesarios para desempeñar tus funciones.

Buscamos alguien con mucha motivación y ofrecemos posibilidades de promoción en la empresa. Preferentemente alguien que le queden pocas asignaturas para terminar o el Proyecto Fin de Carrera (no importa la especialidad).

Si estas interesad@ envíanos tu CV y/o quieres más información, no dudes en ponerte en contacto con nosotros:

alejandro.parra@lightsourcebp.com

La fecha limite de presentación de solicitudes es el día 1 de Junio

Job Description

Job Title	LSbp Quality Intern UK & Europe
Department	Quality, Health, Safety, Environmental and Carbon
About Lightsource bp	<p>Lightsource bp specialises in the financing, development, and management of solar energy projects. We are a 50:50 joint venture with bp with a mission to help drive the world's transition to low carbon energy. Our team comprises over 1000 industry specialists, across 18 countries, working towards our ambition to deliver 25GW of solar capacity by 2025.</p> <p>With solar set to increase tenfold in the next 20 years, we are well-positioned to capitalise on this growth. By being part of the Lightsource bp team, you will 'be the change' on the world's transition to a more sustainable future.</p> <p>Whilst we have been established for over 10 years, we pride ourselves of our entrepreneurial spirit as we continue to push the boundaries of an ever-changing energy landscape. By joining our team, you can expect a challenging and fulfilling role surrounded by people who are passionate and have brilliant ideas about sustainable technology, innovation and making the world a better place.</p>
What You'll do (the role)	<p>SUMMARY</p> <p>The Quality Intern role is a 3 to 6-month summer internship position, where you'll work alongside experienced professionals and gain hands-on experience in the development and implementation of quality assurance processes for large-scale solar projects. You will have the opportunity to learn about quality management, supply chain quality, project management and construction, while also contributing to the success of our mission to deliver affordable and sustainable energy to communities around the world.</p> <p>DUTIES AND RESPONSIBILITIES</p> <ul style="list-style-type: none">• Review and verify supplier quality control processes and documentation and coordinate Factory Acceptance Testing, witnessing and inspection.• Ensure traceability of materials and components from the supply chain to our projects in construction.• Review and verify our EPC (Engineer, Procure, Construct) contractor processes and documentation, including Quality Plans and Inspection and Test Plans.• Conduct site visits to undertake sensible monitoring and oversight.• Provide support and input to incident investigation and root cause analysis.• Derive insight and conduct trend analysis to drive continuous improvement.
Who we're looking for	<p>KNOWLEDGE / SKILLS</p> <ul style="list-style-type: none">• Strong attention to detail and with analytical and problem-solving skills• Passion for renewable energy and a broad awareness of how solar and storage can accelerate the energy transition• Broad awareness of quality management principles (e.g.: right first time, fit for purpose, plan-do-check-act)• Able to influence and communicate across all levels internally and externally and to build strong and trusted relationships• Enthusiasm and willingness to learn in a fast-paced environment – growth mindset <p>QUALIFICATIONS</p> <ul style="list-style-type: none">• Relevant academic background, having completed coursework or currently pursuing a degree in a related subject

Want a career with purpose? Begin a Lightsource bp internship.

Green energy isn't the future, it's the present. Our green electrons are changing power for businesses and utilities today, helping partners accelerate their climate action now. Our world-class team is delivering solar energy at the scale and pace that the climate emergency demands. Join our internship programme and help change power for the better.

INTERNSHIP PROGRAMME

What does our internship programme look like?

Our internship programme will give you the opportunity to experience working for a pioneering renewable energy business that's pushing the boundaries of an ever-changing energy landscape.

What to expect from our internship

Internships at Lightsource bp will give you a broad experience of the business. Our mentor – or 'buddy' – system means you will benefit from access to both senior executives and junior-mid level employees, who will help facilitate your development and daily task management, as well as serving as a point of contact throughout the internship.

Each intake begins with an induction week, where interns are introduced to key Lightsource bp executives from across our worldwide operations and departments. You will then participate in workshops and team-building activities with your peers. Ongoing professional development is given throughout the internship through mentoring and coaching from managers.

Building connections: global alumni network

All incoming interns are invited to our LinkedIn groups where they can connect with our growing intern alumni network. Our community not only shares career, networking and volunteer opportunities, but also organises virtual or in-person meetups.

GET INVOLVED AND GET PAID

Learn by doing

You're not here just to watch. We will give you the opportunity to get involved and make a difference with hands-on experience. We will invest in you, mentor you and give you the tools you need to succeed, including a three-day intern basecamp when you join.

Earn a salary

All our interns are paid a salary – we'll never ask you to work for free. Our internships run up to a maximum of six months and you will receive a salary for the entire time you are with us.

ELIGIBILITY CRITERIA

Am I the right fit?

To apply for a Lightsource bp internship, you need to meet a few basic criteria:

- Be at least 18 years of age
- Be fluent in English*
- Be available for the mandatory orientation and internship dates

All students in their penultimate or last year of their BSc, or graduate/MSc students, are encouraged to apply.
